

Window Cleaning

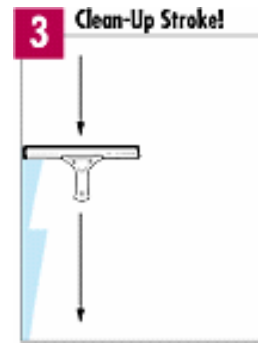

Apply cleaner onto glass or directly onto scrubber.

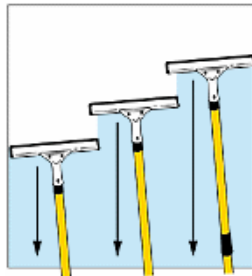

Scrub window to remove soils.

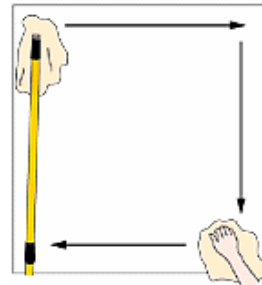

Overlap squeegee strokes about 1-1/2".

Wipe blade after each pass with the squeegee.

For hard to reach jobs, use extension pole.

Use a dry, lint free cloth to wipe edges of window after squeegeeing.

Additional Information

- ⇒ Machine wash scrubber before first use.
- ⇒ Do not wash windows in direct sunlight.
- ⇒ To wash window screens, saturate scrubber with cleaner. Wash both sides of screen. Allow screen to air dry.
